Special Wholesale Blue List Prices

For exclusive use of Market Gardeners, Truckers and Florists

Effective December 1, 1950, all invoices for purchases will be charged at the prices quoted in this Burpee Blue List, unless Special Offers are made by letter or telegram and referred to when the order is placed.

We expect to adhere throughout the winter and spring to the prices quoted herein, unless some causes beyond our control require a change, in which case we shall be governed by the market. All goods are offered subject to prior sale, and we reserve the right to change prices without notice if it should become necessary.

This Book, Known as Burpee's Blue List

is for the exclusive use of Market Gardeners, Truckers and Florists who, on account of the larger quantities of seeds they require, are entitled to these Special Wholesale Prices. We are anxious to do all we can to help you make a success of your business by supplying the finest seeds it is possible to furnish. As a grower you know the importance of good seeds; you cannot take chances on the quality of the seed from which you expect to make your profits. Sow Burpee's Tested Seeds—you can rely on them. They are guaranteed. Read the Burpee Guarantee below.

Terms of Payment

Our terms are cash with order unless you have an account with us or are satisfactorily rated by the commercial agencies. To those who have accounts and others of approved credit, our terms are *60 days net*; 2% discount for cash in ten days from date of invoice, or 3% discount when cash accompanies the order, for Vegetable and Flower Seeds and Flower Bulbs. No discount on Grass Seeds, Field Seeds, Roots, Fertilizers, Insecticides and General Merchandise, or on shipping charges, all of which are *net cash*.

New customers, unless satisfactorily rated with the commercial agencies, should furnish us with at least three trade references. Orders from new customers amounting to less than \$5.00 should be accompanied by cash.

Orders for seeds (but not roots) will be shipped C.O.D. upon receipt of a deposit of 25% of the value of the order.

Order Early

There are severe shortages of quite a few varieties of flower and vegetable seeds; therefore, we advise that you cover on your requirements as soon as possible.

Burpee Guarantee

We guarantee the vitality and purity of Burpee's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil, and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs. All seeds and bulbs are sold under this Burpee Guarantee.

We Send You this Wholesale Catalog (Burpee's Blue List) in the hope that we may receive your order this year. We believe we are equipped to render the market gardener and florist a very real service. You can depend upon us to get your seeds on their way to you as quickly as possible. It is our purpose to serve you so well, and at so low a cost, that you will never again sow any other seeds except Burpee's.

Free Delivery anywhere in the United States except where stated otherwise

Burpee's Hybrid Tomatoes

ALL CREATED ON BURPEE'S FORDHOOK FARMS

Unsurpassed for quality, uniformity and yield. Every seed from a hand pollinated fruit.

Burpee Hybrid Tomatoes

1132 Burpee Hybrid

70 days—Early-midseason, all-purpose, true first-generation (F₁) hybrid which outyields Rutgers or Marglobe in fruit number by an average of 20%. Fruits are medium to large, average 8 ozs. in weight, deep globular in shape, smooth, scarlet-red, flesh meaty, firm; cell walls very thick, of outstanding quality and rich flavor. A valuable tomato for the market grower, canning, and distant shipping.

1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

1121 Fordhook Hybrid

60 days—An early, highly productive, long-bearing, true first-generation (F₁) hybrid, noted for its big yield and uniformly shaped, smooth fruits of medium size, average 6 ozs., oblate to globular in shape, and borne in large clusters. Skin colors evenly to a clear bright red all over; flesh firm and mildly acid to sweet in flavor. You can get new production records with Fordhook Hybrid, without sacrificing fruit size, by providing proper fertilization and adequate moisture supply. Fordhook is a dependable hybrid and especially suited for early market and shipping.

1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

1131 Burpee's Big Boy

78 days—True first-generation (F₁) hybrid, at its peak of production in midseason when many standard varieties decline in yield and size of fruit. Unlike other large varieties, Big Boy Tomatoes are perfectly smooth, deep globe to deep oblate in shape, very firm, extra large, average 10 ozs., some weigh 1 lb. or more. Scarlet-red skin, thick walls, bright red, meaty flesh of fine flavor and excellent quality. Plants are large, extremely vigorous and heavy producers. Readily salable in market and roadside stands.

1/4 oz. \$10.00; 1/2 oz. \$18.00;
oz. \$35.00; 1/4 lb. \$110.00; lb. \$325.00

1135 Clinton Hybrid

75 days—Midseason, very productive, true first-generation (F₁) hybrid developed especially for the Middlewest and well adapted to other regions. Plants are large, vigorous, with dense foliage which protects the fruit from sun-scald. Will outyield most open-pollinated varieties of the same class. Fruits are large, weigh about 8 ozs. or more, deep red, globular to oblate in shape; firm flesh of excellent quality. Recommended for market, canning, and long distance shipping.

1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

1133 Burpeeana Early Hybrid

58 days—Distinctly different extra early, true, first generation (F₁) hybrid tomato created at Burpee's Fordhook Farms, to offset the usual shortcomings of many of the open-pollinated early varieties. Fruits of Burpeeana Early are of an attractive, deep globular shape, medium size, smooth, firm, rich scarlet, average 5 ozs. in weight, and borne profusely in clusters of from 5 to 8. Quality is excellent; flavor is mild. Plants are of spreading habit, prolific and decidedly so if high fertility and moisture are maintained in the soil. Adapted to staking. Profitable for early market.

1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

"—The results from your Hybrid Tomato, Burpee's Big Boy, were highly satisfactory in this area.

"The germination last spring was very good, in fact approximately 60,000 No. 1 plants were obtained from a pound of seed. The Big Boy is a very vigorous grower giving good protection against sun scalding and producing more crack-free, exceedingly large tomatoes than any other variety to date.

"The harvesting period is much longer than average, due to good size of the tomatoes produced on the end of the vine. It was also noticed that the finally abandoned Big Boy fields were escaping late blight that wiped out later plantings of other varieties. . . .

Marbury B. Clark, Harmans, Md.

"—Your Burpee Hybrid tomatoes are spectacular. So far from my records I have picked a half a bushel per plant of some of the most luscious, red ripe, meaty tomatoes that can be found. Moreover the height of the tomato season isn't here yet (June 28). I expect a big year of profits. Any Burpee Hybrid, whether it's corn, tomatoes, cucumber or any other vegetable, is tops with me. . . .

Albert Campbell, Jr., Bakersfield, Calif.

Burpee Hybrid Cucumber

ORIGINATED ON BURPEE'S FORDHOOK FARMS

370 Burpee Hybrid 60 days. High resistance to mosaic and downy mildew are the outstanding attributes of this true first generation (F₁) hybrid white spine, slicing type cucumber. Vines are extremely vigorous, long lived and bear an abundance of well-formed green fruits of handsome appearance, 8 in. and more long, 2½ in. wide, square at both ends with medium seed cavity and crispy, white flesh of excellent quality. Burpee Hybrid Cucumber outyields open pollinated varieties because the vines continue to produce their fruits most profusely for a long time after the others have ceased. Gardeners everywhere write us of the wonderful results they are having with this cucumber. Burpee Hybrid Cucumber has proved to be exceptionally well adapted to greenhouse growing, and is the leading variety of glass-house growers in the hothouse sections of the country. Its unusually high yields under glass make Burpee Hybrid Cucumber a profitable variety to grow when the market demands a quality cucumber at high prices.

½ oz. \$2.20; oz. \$4.25; ¼ lb. \$12.75; lb. \$35.00;
2 to 9 lbs. @ \$34.00 per lb.; 10 lbs. or more @ \$33.00 per lb.

HEAT-RESISTANT, SPRING FLOWERING or CUTHBERTSON SWEET PEAS

Come into bloom, outdoors, about 10 days before the Giants and remain in bloom the same length of time. Plants are quite vigorous and produce a heavy crop of large, long-stemmed blooms. Heat-resistant and therefore especially adapted to localities where sweet peas have heretofore been more or less unsuccessful. Under glass they are unusually free flowering and prolong the spring cutting season.

3470 **Light Blue** (Hazel) Most pleasing clear azure-blue.

3471 **Mid-Blue** (Tommy) Pure medium-blue of fine form.

3475 **Deep Blue** (Danny) Large, dark navy blue flowers.

3477 **White** (Janet) Remarkable pure color. Black-seeded.

3483 **All Colors Mixed** All ten colors listed above and others in a well-balanced blend for a grand show.

Any of the above Spring Flowering Sweet Peas: Oz. 35¢; 1/4 lb. \$1.00; lb. \$3.50

Burpee's Early Flowering SWEET PEAS

Burpee's Early Flowering Sweet Peas come into bloom outdoors before the summer heat arrives—usually 3 to 4 weeks earlier than the Burpee Giant varieties. They are valuable for winter flowering under glass, also especially adapted for growing in frost-free sections and for earliest blooms outdoors in the North. Sweet Peas do best in cool weather. If seed was not sown in the fall, sow as early in the spring as the ground can be prepared. All types of sweet peas prefer an open, sunny location, and deep, rich soil which must be well drained.
